themselves only, but the Lithuanian Security Police had no touch with the Gestapo. Therefore that reproach that I allegedly, under- signed the above sentence made against me is nothing but a pure fabrication.

9. The activity of the Lithuanian Security Police was limited to the persecution of communists and bandits acting in the country. The following sections were disconnected from the Lithuanian Security Police: underground activities of Lithuanians and Poles as well as Jews. They were in exceptional German disposition.

10. Not only have I ever taken any part in the repressions carried out by the Germans, but to the contrary: risking my life I saved suspected persons by warning or hiding them, or helped to free detained ones myself or through the employees under my disposition. Some of them were detained and imprisoned by the German police for helping Lithuanians, e.g. P. PUKULIS from the "Vandys", M. K. RAB- TAI, Bronius in Trakiai.

11. As my Lithuanian policemen fought against German repressions and worked in underground, when the Germans tried to liquidate the Lithuanian underground they arrested, under others, Mr. KIKULIS. Po- vilas, chief of section in the Lithuanian Security Department, who worked in the underground and was deported to a German KZ, but to mention other arrests of other employees.

12. I could not give an order to shoot any poles for the simple reason that I had no such right, that I got used the inhabitants of Lithuania working in the underground myself. Moreover I was grown up in a religious family and have been a faithful Catholic performing my duties conscientiously.

13. In the spring of 1944 Germans intensified the persecution of persons suspected in the anti-Nazi movement, and as I was in that turn, I left my duties as an official of police and hid myself, but I remained in the anti-Nazi resistance all the time.

14. When the about time of U.S. American battles approached in Lithuania, I was detained by Germans and was sent to forced-labor with my wife together, we were deported to Germany where we worked in a factory (about at D. J. -burg) till American Ray liberated us. You may see from the above statement of witnesses what was the Lithuanian underground had from myself, that I didn't really take any part in the shooting of Poles, and that all my statements are true and right.

Being in line that I was reproached very severely, although the accusations were entirely invented, that I have not ever made such crimes, but, on the contrary, I devoted all my energies to the resistance activities in the Lithuanian underground, helping German intentions, that I was imprisoned by the Soviets (and severely tortured) as well as I suffered from Germans (risking my life in Lithuania and working as a slave in Germany). I kindly ask you reconsider my case and to approve my migration to the U.S.A.
